

The curious case of the DevOps engineer

And 10 things we've gotten wrong about DevOps

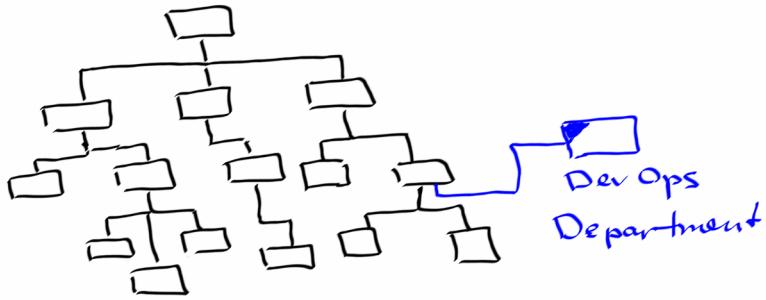

The rise of the unicorn engineer

WE ARE
HIRING
DEVOPS ENGINEER

- Java/Python/Development Skills
- AWS,Jenkins,Kubernetes,Ansible, Dockers
- Windows, Linux & UNIX.

Or... departments

Tooling over process

We need CI/CD,
automation...

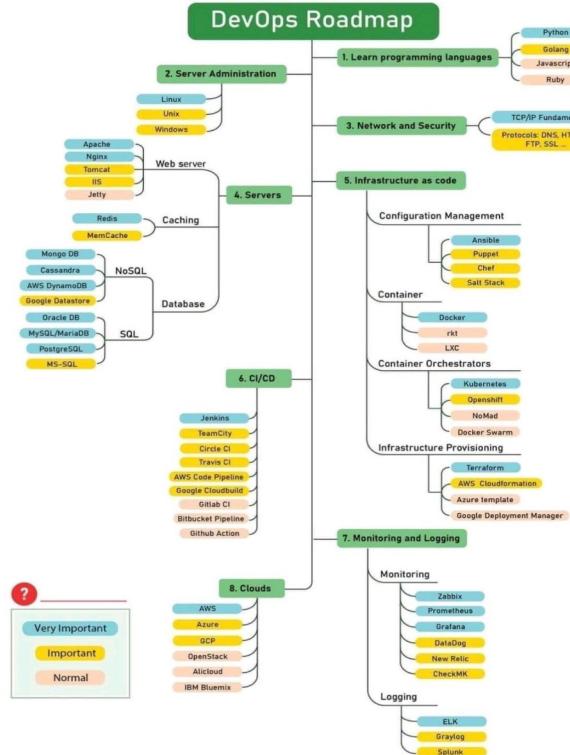

For what?

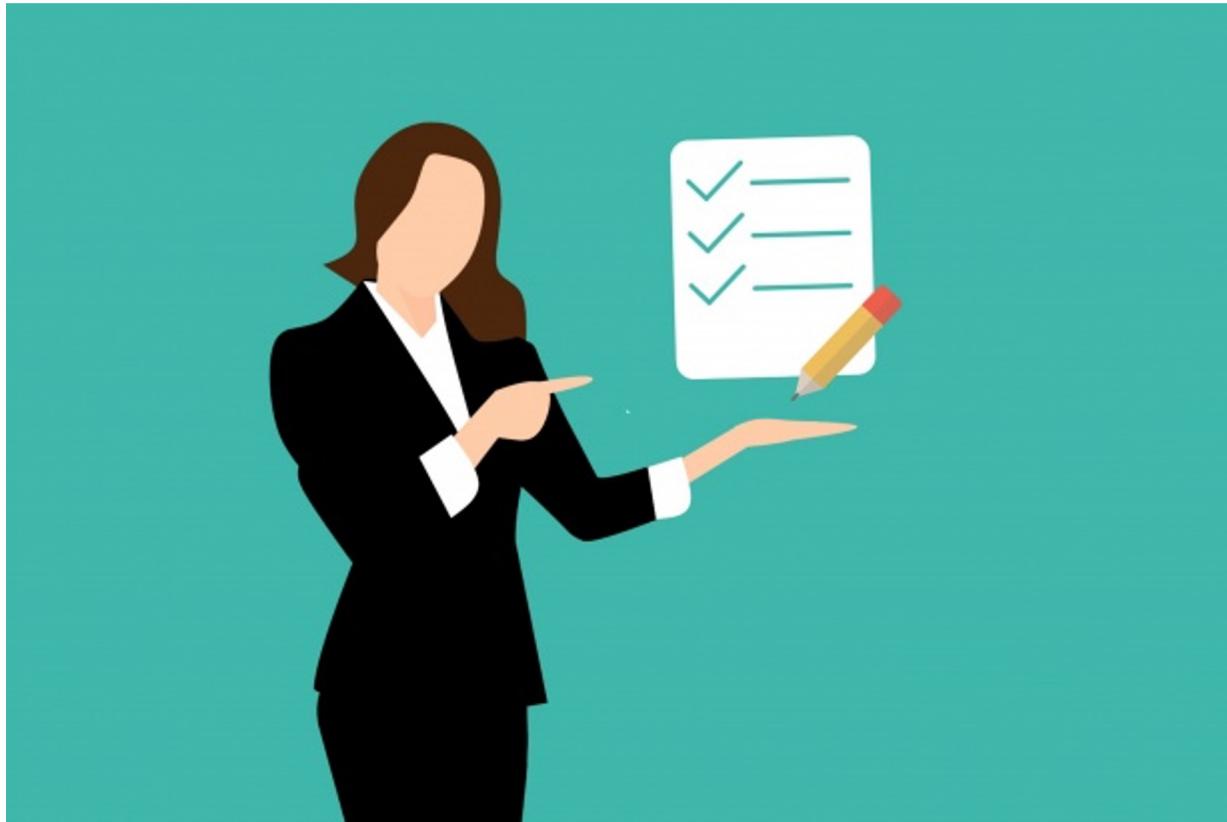

To be DevOps,
of course...

Incident (mis)management

A photograph of two dogs in a snowy, mountainous environment. One dog is white and fluffy, sitting on the left and looking towards the right. The other dog is larger, with a mix of white and tan fur, sitting on the right and looking directly at the camera. The background consists of snow-covered ground and rocky mountains under a clear blue sky.

We save...

the
best for last

Move (way too) fast and break things!

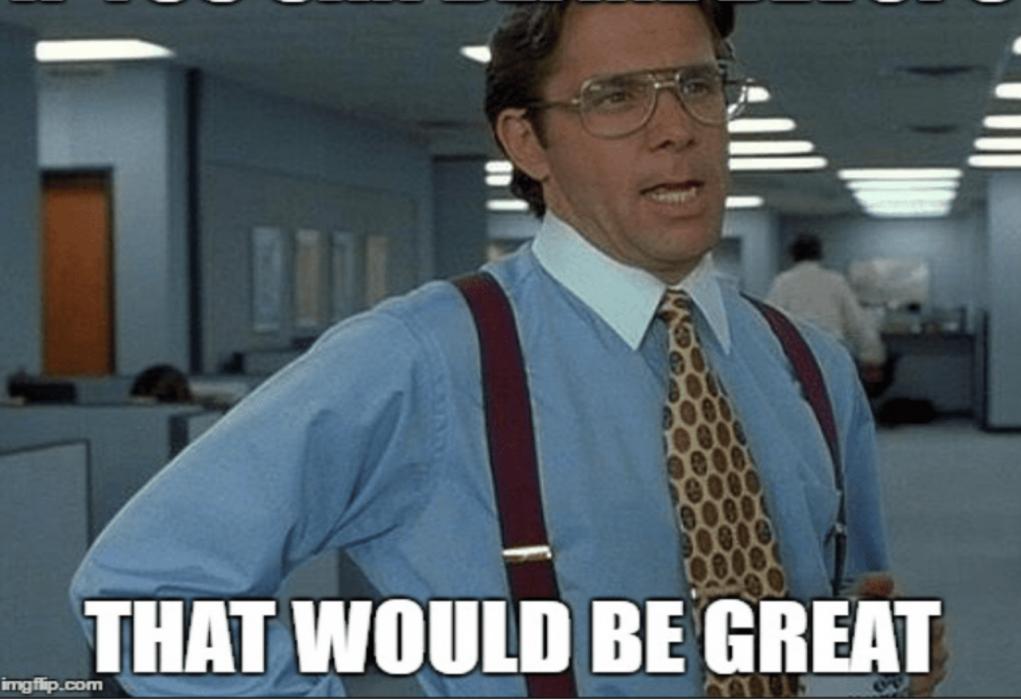

Go big or
go home.

Security, an afterthought

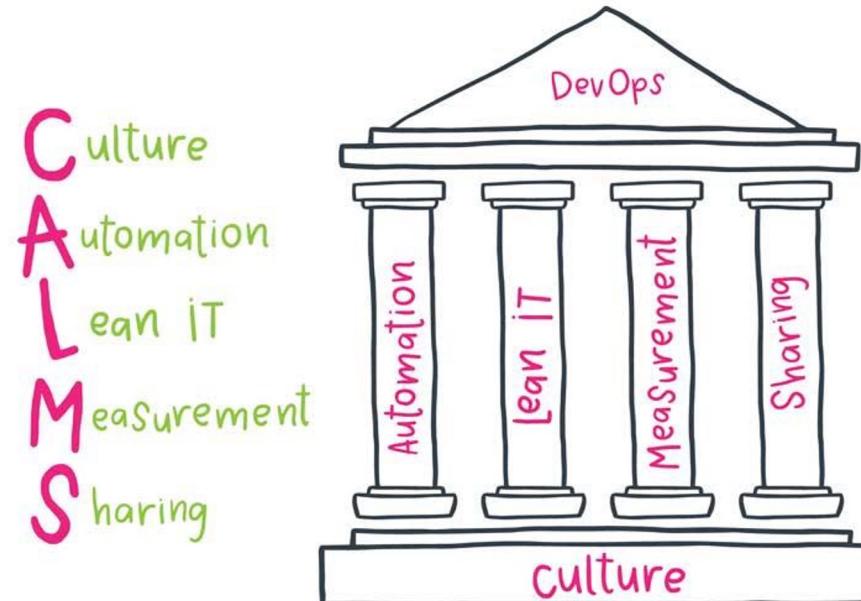

Redefining DevOps

IF YOU CAN-DEFINE DEVOPS

THAT WOULD BE GREAT

Keep CALMS & DevOps

Keep It Simple,
Silly

Back to Basics

SO LONG AND...

Thanks for all the fish!
